# ABOUT ME

I'm a 5th generation Californian and my artwork is influenced by my deep roots in this special place - my maternal ancestors arrived in San Francisco just after the Gold Rush. Flash forward well over a century, and my family still calls the Bay Area home. After graduating with an art degree from UC Berkeley, I set out to find a way to combine my love for illustration and stationery with my interest in nostalgia, family history and our beautiful state. The resulting line of paper goods and gifts is a vintage-inspired celebration of color, nature and California.

**While each illustration and design begins with my own personal story intertwined, my mission is have them become beautiful reminders of home, travel and adventures for locals and visitors alike.**
